

ing to about \$2,500 yearly. On motion of Mr. Sommerville the board will recommend that the legislature increase the yearly appropriation for normal school teachers from \$5,000 to \$4,000 for each school.

It was reported to the board that the West Liberty building is being moved into it and that the new building will be occupied by the school in a few days.

The board next got into a discussion regarding themselves. The appropriation for traveling expenses is placed at \$600 per year, which, it was stated, is not enough to allow the members to attend all the meetings required by law and visit the schools. It was resolved to ask the legislature to increase the appropriation to \$1,000.

The president of the board was authorized to make needed changes in the board's rules and bring them up to date.

The board's architect, Mr. Davis, of Baltimore, was next called upon for a statement regarding the two new buildings, those at Glenville and West Liberty, the construction of which he supervised. Mr. Davis prefaced his remarks by saying that the board is acquainted with the new building at West Liberty, having inspected it yesterday afternoon. Though the structure is a plain one, it is admirably arranged and the contractor has done his work in good shape. The Glenville building, just completed, is all right he said, with the exception of the moulding in one or two rooms, which is imperfect. This the contractor, Mr. McCoy, of Marietta, has agreed to replace during the vacation next summer. In the meantime he recommended that \$400 be retained to insure the work being done satisfactorily. The foundations of both the new buildings are said to be excellent, and it was predicted by the architect that there will be no cracked walls, as is the case elsewhere. The state superintendent, Mr. Lewis, who followed, said he was very much pleased with both buildings. Mr. Sommerville moved to receive the two buildings and pay the balance due the contractor. This motion prevailed without opposition. The architect was also allowed his final commission. The balance due on the West Liberty building is \$2,500 and on the one at Glenville \$1,000.

Later on Mr. Davis said that the plainness of the buildings has been referred to. It is true the exterior is plain, but with the appropriation available, this was not to be avoided, and the interiors of both are first class, and well arranged.

On motion of Mr. Sommerville the board fixed the salary of the secretary at \$50 per year.

GALLAHER IS HELD

And Miss Smith Released in the Fidelity Cases.—The Habes Corpus Hearing.

Yesterday forenoon Squire Gillespie finished up the hearing of W. L. Gallaher and Miss Theresa Smith, accused of fraud in the Fidelity and Columbia Company transactions. The examination of Superintendent Gallaher was resumed when the case opened. He said he never received anything from the company for loaning money to stockholders. All the money that came into his hands, over what was required to pay the running expenses of the office, was sent to the home office at Washington. He had always believed the company to be an honest concern, and had seen no reason to change his mind. There was never any indication of a desire to avoid loaning money here. He said the appraisers of real estate had no interest, financially, in the company.

He was asked by Col. Arnett: "Have you ever calculated on the basis of the company's contracts to determine whether they can mature a share of stocks in 102 months?" and he answered: "I never did, but Mr. Folsom figured it out once and he told me it could be done."

"Have you ever calculated it yourself," he was asked, and responded, "No, sir, because I did not know how to figure on the lapses."

"Do you really think the company intend to carry out their contracts?"

"I have always been of the opinion that they were all right."

Mr. Howard cross examined him again briefly, and then Miss Theresa Smith was put on the stand. As a result of the examination Gallaher was held in \$1,000 bail for court, and Miss Smith discharged.

In the afternoon Gallaher was brought before Judge Jordan of the criminal court, on a writ of habeas corpus, and his own testimony was taken, much as he gave it before the justice. The case will be argued this forenoon.

AN AIR OF MYSTERY

About the Meeting of Baltimore & Ohio Engineers

IN THIS CITY YESTERDAY EVENING.

Twenty-eight are Here, Coming from Points Everywhere on the Baltimore & Ohio System—A Delegate Says the Meeting Will Result in No Trouble—The Sessions to be Continued Here To-day.

The presence in the city of twenty-eight engineers of the Baltimore & Ohio system became known yesterday afternoon. They came from all parts of the system, from Philadelphia to Chicago. It would not be a characteristic gathering of locomotive engineers were not the utmost degree of secrecy and mystery shrouded around it. Most of the delegates to the meeting are at the Stamm House, some having come here Monday evening and others yesterday morning. They were in session at the Stamm last night, and although nearly every delegate was interrogated as to the mission here, not one of the entire lot would give an inkling of the motive of the gathering. One man, however, got out of his shell long enough to let it out in an unguarded moment that the result of the meeting will not bring about trouble between the engineers and the management of the Baltimore & Ohio. There is no doubt that the meeting is an important one, otherwise there would be no excuse for the presence here of so many delegates from such remote points. Something may leak out today, for it is understood that sessions will be held here to-day.

Among the engineers who are attending the meeting are the following:

G. A. Deck, of Grafton; D. E. Fisher, of Cumberland, Md.; P. J. Fitzgerald, of Philadelphia; B. A. Stull, of Baltimore; G. W. Light, of Martinsburg; M. Phalen, of Brunswick, Md.; J. Robe, of Newark, O.; E. Fryman, of Chicago Junction, O.; R. Lantz, of Garrett, Ind.; W. J. Duffy, of Wheeling; F. T. Hyndman, of Pittsburgh; William Bradley, of Connellsville, Pa.; William Reed, of Foxburg, Pa., and John Catherwood, of Bay City, Md.

The Ladies' auxiliary to the Baptist mission school on the Island will hold a holiday bazaar and festival to-morrow afternoon and evening, in the chapel on South York and Virginia streets. The articles for sale will be specially adapted for Christmas gifts.

A NUMBER of the local contractors have been in Pittsburgh recently inspecting the plans and specifications for the new Pan Handle passenger station at the foot of Eleventh street, and nearly all have or will put in bids. Bids close December 22 and the contract will probably be awarded soon after.

It May Do as Much for You.

Mr. Fred Miller, of Irving, Ill., writes that he had a severe kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many so-called kidney cures but without any good result. About a year ago he began the use of Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure of all kidney and liver troubles and often gives almost instant relief. One trial will prove our statement. Price only 50c for large bottle. A BRILLIANT EVENT.

The First of the Assembly Dances Was Given Last Night.

The Assembly dances that were given by a number of young society people last season, proved immensely popular, and during the out-of-season months, last summer, the wish was frequently expressed on all sides that the young men who took the initiative steps and carried the events to success last year, would do likewise this season. The committee in charge this season is composed of the following well known young society men: Messrs. Charles Lamb, Charles Cooke, Hal Speidel, Will Rice and Will Schaffer. They went to work early and the assurance was given several weeks ago that the dances would be given on a scale fully up to the high standard of excellence that characterized those of last season.

Last night at the McClure the first of the assemblies of 1894-95 occurred, and to say that the committee has given all that it promised is putting it with exceeding mildness. The parlors of the hotel were beautifully decorated, and about one hundred of Wheeling's social circle participated and pronounced the first assembly of the season an unequalled success from every point of view. The following were the chaperones: Mesdames Joseph Speidel, L. B. C. List, T. C. Moffat, B. M. Shaffer, G. Edward Mendel, Frank Hearne, Gibson Lamb and John L. Rice.

The Opera House orchestra officiated, and the music of the dance was very much in evidence until an early hour this morning. Among the out-of-town visitors who were present were Miss Carrie Bassell, of Clarksburg; Miss Bowman, of Greensburg, Pa., and Miss Carnahan, of Cadiz.

The river at this point was 10 feet 6 inches last night and still rising. Weather, raining and warm.

The extent of the present swell in the Ohio is not likely to come up to the expectations of Monday, unless the Allegheny comes out stronger than was looked for last night. It was estimated that 15 feet would be the extent of the rise here, but last night the marks showed only 10 feet 6 inches and rising only slowly. If the Allegheny comes out strongly the anticipated 15 feet will be seen, but not otherwise. Considerable coal will come out from Pittsburgh, boats that were unable to come out on the late rise.

Reports from headwaters last night: Greensboro—River 9 feet 6 inches and falling; weather cloudy and warm.

Warren—River 2 feet 5 inches and rising; weather cloudy and cold.

Morgantown—River 9 feet 10 inches and falling; weather cloudy and warm.

Steubenville—River 10 feet 5 inches and rising; weather clear and warm.
